MANSLAUGHTER CASE AGAINST DRIVER HEARD

Decision Deferred—Application for Dismissal Presented

Allied to have caused the death of Mrs. Helen McKey, 50, by striking her in the head with his car on the Port Road March 20. Before Justice George B. McLeod in the Provincial Court, the defendant was given time for preliminary hearing on a charge of manslaughter.

He appeared until Friday afternoon, when W. R. Moore, attorney for the defense, moved a stay of proceedings on the technical ground that the woman, Mrs. McKey, who was buried from Andrew's Brothers parson, had been buried before the trial was run down by Moore's car.

Moore was granted a Royal Alberta hospital, March 31, hours after she was injured.

William Moore, who was riding a bicycle near the scene of the accident, said he had passed him at a speed of 35 miles an hour before the accident. The Traffic Committee, trustee of the city police testified that he had tested the brakes of Moore's car and found them to be in good condition. He said they should have stopped it in 35 feet.

INVENTOR PISTER FOOD WITH SCHEMES

LONDON, April 12—Inventors and others with schemes in which they believe they can make money have become so numerous at the hotel where the noted manufacturer of food products, Dr. J. H. Pister, has given up even trying to keep them away.

Ever since the name of the hotel became known, the telephone, post office and newspaper have been besieged with inventors who have given up their despair and issued instructions to the hotel management not to put any more calls through.

\$30,000 FIRE SWEEPS ALIX; P.O. IS SAVED

Bucket Brigade Assists Firemen—Origin Is Unknown

Emergency to Protect

ALIX, April 12—Starting shortly before 1 a.m., and raging until after 4:30 before finally being got under control, a fire at the home of a Mr. and Mrs. John D. Herford, 2000 block of 10th Street, caused a loss of \$30,000. The fire here early this morning, however, was not the only one to break out in the city. In fact, there were four other fires in different parts of the city.

At one time the whole of Main Street between 10th and 12th Streets was surrounded by local residents assisted the fire company, and apparently rushed into service, manned by the men of the bucket brigade.

The house, by the way, was the home of the late Mr. and Mrs. John D. Herford, 2000 block of 10th Street, who were

awakened by the alarm and

came in and remained around the place, also

until the flames were put out.

Even though the fire was put out, the house was still burning when the fire department arrived.

PEACE RIVER DOCTOR DIES IN EDMONTON

Dr. W. B. L. Donald, Physician, Passes Away in Local Hospital

Dr. W. B. L. Donald, one of the oldest physicians in Alberta and for the last 20 years a resident of the Peace River district, died yesterday morning at 6:30 a.m. in his 65th year.

Donald was born in Woodstock, Ont., in the class of 1898 and subsequently studied at the University of Western Ontario, London, and at the Medical School of the University of Michigan.

In the winter of 1914 to 1918 he served in the Canadian medical corps in France.

After the war he returned to Peace River and became a member of the medical staff of the Royal Victoria Hospital.

In the fall of 1920 he was transferred to Prince George where he served for three years.

Donald was married to Miss Kildi Kerr, a brilliant and popular actress in the Jackson block; he had two sons, Bruce and Edward and one daughter, Mrs. G. E. McLean.

The body will be forwarded to Peace River on Monday next where full funeral services will be held.

Dr. Donald and his wife, Dr. Donald and McBride, funeral directors, are making arrangements.

H. D. Ainlay of Edmonton Elected President Alberta Teachers' Alliance

SCHOOL WEEK DECIDED UPON BY GATHERING

C. G. Elliott Named Representative for Edmonton Division

CALGARY, April 12.—H. D. Ainlay, Edmonton teacher, was elected president of the Alberta School Teachers' Association yesterday by the 1,000 here Wednesday afternoon. C. Sansom of Camrose was elected vice-president.

Representatives elected for government districts were: H. G. Elliott, Calgary; F. B. Aspinwall, Northern Alberta; J. S. Simons, of Fort Macleod; W. H. White, Lethbridge; E. Simpson, Daysland; Southeastern Alberta; J. A. McLean, Medicine Hat; Southwestern Alberta; Geo. Watson, Cochrane.

A feature of the publicity and propaganda committee whose report was forwarded to the convention was a recommendation that an Alberta School Teachers' Week be set up to that of Fire Prevention Week. This was adopted subject to the working out of details.

A number of resolutions dealing with the school week and of importance to the teaching profession were passed.

Caledon Sparks

At Wednesday afternoon's joint session of the Alberta Teachers' Association and the Alberta English Association, Dr. Colemen of the University of Alberta, Dr. John Ross of the Canadian Teachers' Federation, and on the discussion, "Are we becoming too sentimental?"

During the course of his address Dr. Colemen said that the future of education of Canada was to explain life rather than to teach it. It was the duty of educators to educate children as some particular class wanted them to be educated. He also said that the failure of existing schools to deal with the problem of rural districts, stating that the remedy for the times was not to educate the rural child to the city, but to make rural life such that people would want to live in urban districts the same as in city districts.

Denude Youths

Dr. Colemen also came out strongly in favor of the proposed legislation now before the legislature, which would require that they are not at fault as generally declared but that they were guilty of indecent exposure.

"Will we have narrow-minded enough to let them go ahead alone, or will we follow the lead of the public school," he added, adding that it was not the young people who wanted to be taken, but their elders, who refused to think.

Mr. Caldwell also deplored the use of schools for spreading propaganda, but believed that the teachers were in the measure and understanding of co-operation, and that the work of teachers organizing and co-operating to pull together in order to meet the needs of the community factor in the solving of the education problem of today.

Elevator Construction Firms Making Drive on Peace River

25 Contracts Let for Northern Empire District—Train Leaves Today With Workmen and Materials

Contractors throughout the continent have their eyes opened and are coveting the opportunities awaiting them in the Peace River district, where the Northern Empire District Elevator Company, who leaves this afternoon for Spirit River to commence operations on the first of several contracts, the company intend to let 25 more contracts in the Peace River area.

Already contracts have been let for the construction of 25 new elevators in the Peace River district, and the Northern Empire District Elevator Company, today's train will carry 25 special workmen to lay the ground work for the company's present contracts.

The Northern Empire District Elevator Company operates several elevators in the Peace River district, principally in the vicinity of Bérynn, and has contracts for 25 more elevators, all to be put up on a wide scale. Last fall, four of the company's plants near Bérynn handled 120,000 bushels of wheat. Mr. Ingle declared, but with the completion of this year's building program, it is expected that volume will be doubled.

RECLAMATION SCHEME IN B.C. IS APPROVED

by girls, while they also obtained a number of places among the students.

The second place was taken by a group of Lacombe, while another Lacombe girl, and one from Bérynn, took third place.

Barbara Chalmers, of George Street, Victoria, took fifth and ninth places respectively, while four places were held by students nominated by John Schlesinger of Spring Creek.

In all, 10 girls entered in the competition.

OTTAWA, April 12.—Plans for the construction of permanent works for the reclamation of the Peace River valley, the channel of the Kootenay river near Creston, the international border, were submitted today by the international applicants, the Cretation Reclamation Company, Ltd., of Vancouver, and the Canadian Reclamation Company, Ltd., of Victoria.

CRANBROOK, B.C., April 12.—Thomas Scott, 21, of Cranbrook, was denied in the homicide Wednesday that he had ever been connected with the shooting of his father, and will be released.

The two lads with whom he was staying were there when considerable powder on the floor and they applied themselves to extinguish the fire.

He was held in custody for a second time after having developed first one.

EXPOSITION TOTAL

OTTAWA, April 12.—The Dominion Land will be extending the second homesteading privilege to the Indians in the Yukon territory, says Hon. Charles Stewart, minister of the interior.

He has directed the Indians to enlarge the classes of persons who could take a second claim after having developed a first one.

BREWER AND HIS "LOVELY LADY"

WOMAN LEADS REBEL HORDE

MEXICO CITY, April 12.—A deserter to El Ultimo, the South African commando, who left the country to fight in the Boer War, has returned to the rebels.

Max: I get my living barking like a dog.

Friend: Do you do it in a circus?

Max: No, for the government—I go to the circus to bark.

Friend: What does it do?

Max: It answers all the questions.

Friend: That's good.

Max: It's all right.

Friend: What's the best way to bark?

Max: I bark like this.

1,860 NEW FARMS

In the year ending with March, 1, 1860, homestead and soldier grant entries were filed at Peace River and Grande Prairie. That is evidence of the most convincing character that the movement of settlers into the Peace River District is in full swing, and that it is of the most promising proportions. The addition of that many producing farms will in a year or so make a sensible difference in the total output of grain and other farm products, while the entries represent an additional 1,000 persons of the district.

There is no reason to suppose that last year marked the peak of the movement. On the contrary, it is probable that the entries for the coming year will exceed those for the year ending with March, 1927, and that to take place this summer will bring shipping facilities within comparatively reasonable reach of a large area of country, in which it is to be expected that settlement will go on actively for the next two or three months.

As in other parts of the west in earlier times, settlement may be counted on to extend in the Peace River area for some years in proportion as railway facilities are extended.

THE BOYS AND GIRLS' FAIR.

The boys' and girls' fair, which opened yesterday, is an event of very wide concern to the young people of Edmonton. The great number and the wide variety of exhibits prove that. The Fair is a success, and it is to be expected that it will be equally popular as ever, especially to the point. On that account, if there were no other reason, the fair should be generously patronized by all who take an interest in the things which interest the boys and girls. This is the attitude of the public, the salient point of the fair being the salinity of the efforts of the older students to be indifferent to their efforts.

Emphasis is being placed these days on the idea that "one learns to do by doing." And this is a good deal of current criticism to the effect that the students who "do" very little for themselves, even relying on the phonograph and the picture show for entertainment. The fair is a direct attempt to encourage boys and girls to do things and make things for themselves. It is also a test as to whether the same principle of competition applies to the boys and girls of Edmonton. Judging from the exhibits these are not wanting either in ingenuity, skill or industry, for the collection of their handiwork is a remarkable demonstration of their capacity for self-help.

SPRING DELAYED

As not infrequently happens, a mild winter has been followed by a long, cold, wet spring, which from present appearances may prove to be a decidedly late spring. The Canadian west is not sated for exceptional treatment in that respect. Reports from other parts of the continent indicate that the operations everywhere are correspondingly delayed. And not all parts of the continent got mild weather in January and February. Taking the whole period from the New Year, Albertans have had more than enough of it. Whether there will be any other section of the continent in which there is any season which can be properly called winter.

With nearly half of April gone, practically no work has yet been done on the farms in the prairie provinces. It does not follow that there need be misgivings about the season's crop. Rather the contrary. Seeding last year was late as has been known in the history of the west, if not actually later than in any year since 1900. The crop was the heaviest ever reaped in the western country. Previous late spring confirms the conclusion that a delayed seed-time does not foreshadow a meager harvest. When the seed is sown in less important than what happens after it has been sown.

PENNSYLVANIA INTENDS TO FIGHT

The Pennsylvania operators are not going to have a quiet time in the oil fields of the Alberta mines without a fight. They have the pries of anthracite a dollar a ton, as a first move to hold the trade by establishing a price that their Alberta competitors can not beat. They may be prepared to cut still further if that is necessary.

They may be prepared to cut still further if that is necessary. The Pennsylvania operators may set fire to reduce rates rather than lose the traffic from U. S. mines to the Ontario border. The plain inference from this prima facie manoeuvre is that they mean to do something to force the oil companies to return to the oil business which the Pennsylvania operators have so long enjoyed and out of which they have been making at least a dollar a ton more than they required to keep a man healthy.

The Ontario householder should not be blind to the significance of this cut in the price of anthracite. Its meaning is that the Pennsylvania operators have been robbing him when he had no alternative coal supply. They are not now proposing to sell

"This is the condemnation---that men loved darkness rather than light."

Keep silent that little cast and say no word About its contents. I am weak today And I should want to see. If once I heard A small prize of old treasure you display, And set aside, and never drive the text and purchasing book would follow next.

I can rest the smile on fully's face And sing to duty on a lovely day.

I can look down on jewels in a case And sing to duty on a lovely day.

Tapers have told me that the taste for drink Is not to be had in a bottle on a lovely day.

And singing the book would follow next.

That form of creating beauty I'm missing.

My passion runs much deeper than it looks.

I have no power within me to resist.

And singing the book would follow next.

That is my vice, and oh, the woe it brings!

It's horrible to want such lovely things.

No, no! I will not look. Nor will I hear.

For I have a secret that I must share.

Promised her that—the pledge to run the race?

You've found the Browning? I've been looking for?

What's the use? I'll give it back again.

Fool, spineless, craven weakling that am I.

LITTLE POND LAKE'S CATCH IS INCLUDED

Exceeds Previous Year by
About \$60,000, Though
Poundage Lower

Value of fish taken from Alberta lakes during 1927 amounted to \$81,217, according to the annual report of R. T. Todd, Dominion government fisherman inspector. This is an increase over the value for 1926, which was \$62,126. Both the above amounts include the catches from Peter Pond (former name of Great Slave Lake) which actually in Saskatchewan, is fished mainly by Alberta men and the catch is shipped out through the waterways of the Alberta and Great Slave regions.

In 1927, commercial fishing produced 1,000,000 pounds of fish, mostly fishing for trout at \$18.96, and angling at \$93,476, or a total of \$865,583. To this amount should be added the Peter Pond Lake catch, amounting to \$1,210,000, which brings the grand total to \$861,317.

In 1926, commercial fishing netted \$64,941,000 worth of fish, while angling brought \$67,924, or a total of \$867,177. To this is added the Peter Pond Lake catch of \$1,210,000, making the grand total to \$861,316.

Poundage: 7,961,496

During the current season of 1927, the commercial fishing poundage amounted to \$1,064,300, or a market value of \$82,126. The weight of commercial fishing totaled 3,304,200 pounds, or a market value of \$81,217. When added the value of 1,461,100 pounds caught in Peter Pond Lake, amounting to \$113,724, gives the total commercial catch for 1927 as 3,765,300 pounds, domestic catch 1,265,800 pounds and angling 756,000 which totals \$861,317. To this is added the Peter Pond, brings the total up to 2,842,800 pounds.

The total commercial catch was 6,699,000 pounds, domestic 1,489,000 and angling 770,000, which with the \$62,126 pounds from Peter Pond, brings the total up to \$93,300.

The value of fish taken in the total catch for 1927 was less than in 1926, but the market value of the catch was greater by about \$60,000.

1,524 Men Employed

The volume of commercial fishing gear, boats and other paraphernalia used in the industry last year was \$104,000.

In 1,210 men were employed in the industry.

Salmon production increased production, while others showed a falling off in volume. The catch of salmon in Alberta and Christine registered the largest increase, in summer fishing, particularly in 1927, the catch increased from \$36,881 pounds in 1926 to \$102,000, or a market value of nearly 1,000,000 pounds of trout caught.

In the winter season, Moose, Plover, Primrose, Lesser Scaup, Glaucous Gull, Horned Puffin, Red Phalarope, Arctic Eider, and other species, co-existed with Cold and Primeiro ledges.

Many inquiries have been received from Vancouver all the way to the east coast, asking for information on fishing and the department has placed a limit on the number of trout to be sent to prevent them, as they do not travel as rapidly as whitefish.

Commercial fishing gear, boats and equipment are preparing to enter the field in 1928 with the opening of the season.

Skins Cause Decrease

The greatest decrease shown was at Lesser Scaup, which decreased in the winter season, chiefly due to storms and the loss of skins. The catch of the fish showed steady production.

The catch of salmon in the spring and in expectation of this special production, the department has given permission by private interests of no other account.

Small Game Hunting

The new Lesser Slave Lake hatchery is now in full operation and the first brood has been built at a cost of between \$10,000 and \$12,000. The hatching at Winter Hill will be finished in April.

Taken as a whole, the fisheries of the province show a general increase and, with the limit of catches and down to the departmental control, the important fisheries being concentrated, it is estimated that the fish supply will last for centuries.

Red Deer Boy Scouts Hold Annual Parade

Events in Bulletin

RED DEER, April 12.—One of the big Scout events of the year took place here yesterday when the local pack of Wolf Cubs held their sixth annual meeting and social evening in the hall of the Royal Canadian Legion, and around 75 parents, Wolf Cubs and their mothers, and Boy Scout representatives of their units, participated.

Presentation of prizes for competitions in the Pack for the last three months was made by Mr. F. A. Fortune, president of the Red Deer Legion, and constable of the Red King Scouts, and whites. Captain Lester McDaniel, leader of the Den Drifters, a novel recitation entitled "The Ten Commandments," was presented, and a sorrowful detail the ups and downs of a Wolf Cub's life.

The Red Deer Boy Scouts and financial statement was read, and showed the progress of the work of the unit, and the fact that the last Red Deer Pack is noted for its clean and trim appearance, compiled by their leader, Captain Calender, received the earnest appreciation of the audience.

The Scoutmaster, Mr. Fred Krause, then thanked the returning parents for their past aid, and the members for their help, especially, and lastly, "for the cake." Several members of the Red King Scouts' service stars, and immediately after Captain Gordon was presented as a regular member, the returning parents all the tests of this difficult badge, and entitled to wear it once again on his sleeve.

Garland and Darland Lewis, twins, and William Ulenbach, all negroes, were sentenced to serve 12 months in the provincial penitentiary, and to serve an additional three months, by Magistrate George H. McLeod, in city court, yesterday. The offenders were charged with operating a car without insurance.

The men also pleaded guilty to the charge of driving a motor vehicle without the consent of the owner, and were sentenced to serve 12 months at the maximum rate of 15 days to 100 hours to serve in戒酒所 (rehabilitation center).

Both were charged with driving a car in an unseemly manner, and were given 15 months in jail.

Detcts. Annie and Clara Mayberry, both with the Alberta force, have assisted the three negroes to secure a state parole, and the men will be released on parole to the custody of Emily Murphy Thursday afternoon.

The men have pleaded not guilty to the charge of driving a car without the consent of the owner.

The men were given a sentence of 15 miles an hour chase on the Calgary expressway, and were given a chance to see if they could outrun police by pouring bullets into the back of the car. The men were given 15 months when the party left the car.
